

**TAMRON**<sup>®</sup> presents

# PHOTO WORKSHOP SERIES 2008

**TRY OUT TAMRON'S  
NEWEST PRODUCTS!**

**AF28-300mm XR Di VC F/3.5-6.3 Macro**

Equipped with an anti-shake mechanism called VC (Vibration Compensation) that lets you take blur-free hand-held pictures at slower than normal shutter speeds.

Here's your chance to get your hands on Tamron's latest line-up of Di and Di-II lenses. We will have a full range of lenses for you to borrow during the in-the-field session.

## Boerner Botanical Gardens

Hales Corners, Wisconsin — September 19 & 20, 2008

Terry Livingstone

Your instructor is Terry Livingstone who since 1991 has offered nature photography workshops, seminars, and tours in a variety of locations, from the Smoky Mountains to the wilderness of northern Minnesota. He also is an adjunct professor at The Renaissance Center in Dickson, TN.

The Boerner Botanical Gardens, an internationally renowned horticultural showplace in the Milwaukee County Parks, offers gardeners, plant lovers and students the opportunity to take in the colors and scents of a variety of perennials, annuals, herbs and more than 550 varieties of roses. The tulip displays in spring are particularly striking, and the crab-apple collection is one of the largest in the nation.
