

**TAMRON**<sup>®</sup> presents

# PHOTO WORKSHOP SERIES 2008

**TRY OUT TAMRON'S  
NEWEST PRODUCTS!**

**AF28-300mm XR Di VC F/3.5-6.3 Macro**

Equipped with an anti-shake mechanism called VC (Vibration Compensation) that lets you take blur-free hand-held pictures at slower than normal shutter speeds.

Here's your chance to get your hands on Tamron's latest line-up of Di and Di-II lenses. We will have a full range of lenses for you to borrow during the in-the-field session.

## James Fitzgerald Marine Reserve

Moss Beach, California — October 3 & 4, 2008

Les Voorhis

Your instructor is **Les Voorhis**. He is an award winning nature photographer who teaches photography classes and workshops for everyone from the rank beginner to the seasoned professional. He has been teaching workshops in various locations across the country from Florida to Montana. Les' published images have appeared in magazines, advertising campaigns, packaging, calendars, web sites and books. Profotos.com selected him as a Top 100 Photographer in 2001.

**Explore Fitzgerald Marine Reserve, and surrounding area.** The reserve is a natural refuge for plants and animals adapted to live at the edge of the ocean. These creatures survive extreme forces of crashing waves and turbulent currents. Fortunately, there are safe areas along the rocky shore to visit. Depending on the low tide schedule the sea water is trapped in pools where you can see blue-green anemones, coralline algae, and myriad shapes and patterns.
